# Dmitriy Stebeniev
Junior Front-end developer

SUMMARY

I'm Dmitriy and I'm a beginner developer. I've always been curious about how things work. That's why I decided to dive into the world of code. If I don't know how to do it - I will look for an answer to that question. If I lack information, I will find it and learn it. I like individual and team work. I would be happy to be part of a team!
